

Hi Judge,

I think an email showed up recently about a meeting..... but it has disappeared into the ether.....
Could you please ask one of your staff to put me back into the loop? ...in the event anyone wants to suffer me further....

I have not sent in suggestions for 2 reasons. 1)The calendar has gotten away from me (poor excuse) and 2) it appears to me to be premature unless the legislative committee is seriously interested in pursuing an overhaul of selection/administration/ supervision of water commissioners and/or distribution enforcement provisions or both. I doubt that tinkering with a section or two of the code would be of much use. Comparison of the benefits and disadvantages of analogous systems seems to me to be the place to start.

Thank you.

Loren Tucker
